

# Character Interview

## You will need:

Tape Recorder

## Directions

Invite the children to be a favourite character from a favourite story. Explain that you are going to interview the character and that the child should answer all of your questions as the character would.

Ask questions that wouldn't necessarily be found in the original story.

For example, ask the character about their favourite foods, what kind of stories the character likes to read, or what the character wants to be when it grows up.

If you've recorded the interview, listen to the playback.

After the interview, children can start to interview each other in the classroom, switching roles and changing characters to make it fun and interesting!
